- Online courses

OBJECTIVE

To kickstart my career as a software developer in einfochips, utilizing my strong academic background in computer applications to contribute effectively to projects, collaborate with teams, and gain valuable industry experience. Eager to learn, grow, and make meaningful contributions towards the company's goals while honing my skills in a dynamic and supportive environment.

PROJECTS

library management system

Developed Library Management System showcasing full-stack proficiency with HTML, CSS, JavaScript, PHP, and MySQL. Streamlined operations and enhanced user experience, driving efficiency and effectiveness.

Student management system

In the 6th semester, collaborated on a team to develop a Student Management System (SMS) using Python, HTML, CSS, and JavaScript, with SQLite integration. Employed Python for a robust backend and frontend technologies for an intuitive interface. Facilitated student record management, course scheduling, and administrative tasks, highlighting full-stack expertise and teamwork.

TECHNICAL SKILLS

Programming Languages

• C/C++ • python • java • javascript • PHP • asp.net

Web Development

• HTML • CSS • reactjs • javascript

Databases

• mysql • sqlite • mongodb • SQL/NO-SQL dbs
